Experience

WEB DEVELOPMENT PROJECT-ACADEMIC & PERSONAL

2024 - Present

- **Hudson Furnishing (Static Website)**
  Developed a responsive and modern furniture website using **HTML, CSS, JavaScript, Bootstrap, and Bootswatch**, allowing users to browse products and contact the business for purchases.

- **Vaccine Management System (Dynamic Website)**
  Built a complete vaccine management platform using **PHP, MySQL, and Bootstrap**, featuring Admin, Hospital, and Parent panels. Parents can view vaccines, book appointments for their children, while Admin manages hospitals, doctors, and vaccine records with appointment confirmation and category management.

- **Airline Reservation System**
  Created an airline reservation web application using **C#, ASP.NET**, and **SQL Server Management Studio**. Clients can search and book flights online, while Admin can view, confirm, cancel bookings, and manage flight details efficiently.
